EVENT SAFETY COMMITMENT

YOUR WELLBEING IS OUR #1 PRIORITY.

The wellbeing of your attendees is our #1 priority. Here’s what Kingston vendors are doing to protect your health and safety so that you can focus on getting down to business.

Kingston is committed to implementing conscious and intentional processes to not only combat this virus, but promote healthy best practices for all of our events during high- and low-risk time periods alike.

The following procedures have been developed through consultation and review of industry best practices, available health and safety resources and input from various industry professionals.

More detailed info on the next page.

KFL&A signage will be posted at all entrances with health check signage.

Masks can be required for all attendees and staff. See the reverse for some local PPE suppliers.

Glove and hand sanitizer stations will be available throughout the events.

New table layouts will allow for social distancing measures and the placement of plexiglass shields where possible.

Indoor/outdoor spaces will be used as much as possible.

Larger aisle ways and one-way only aisles in the trade show and appointment areas help manage traffic.

General sessions will be set up to allow for 6’ space between chairs.

F&B can be provided in a no-contact way.

Software platforms can be used to facilitate general sessions.
