# YOUR NEXT BUSINESS EVENT IN KINGSTON

# connect

# EXPLORE OUR UNIQUE VENUES

Hold your next event aboard a ship, in an art gallery, or at one of Kingston's modern conference centres. Kingston has both intimate venues for your small gathering and large venues with all the technology you need to host a hybrid in-person/virtual event.

The Malting Tower at the Tett Centre for Creativity and Learning as seen from Lake Ontario. This light-filled modern meeting space was once part of a 19th-century brewery. Today, with modern amenities including a high-tech built-in sound system, the Malting Tower makes a memorable setting for your next meeting.

The Tett Centre is also home to nine arts organizations, and eight resident artists. It offers four multi-use spaces for meetings, concerts, and special events.

**Kingston has more restaurants per capita than almost any other city in Canada.**

Kingston chefs proudly showcase fresh, seasonal ingredients from local farmers and producers. Many local restaurants are Feast On © certified, showing their commitment to sourcing Ontario food and drink.

Kingston also has a long history of beer brewing: the city's first breweries operated in the 1790s. Today, Kingston is home to eight breweries (and one cidery), each with their own spin on the craft.

Sample the amazing local food and drink at your meeting venue, or explore the many dining options you have at Kingston's restaurants, cafes, and pubs. While you're in town, your group can also take a guided food or brewery tour.
